

Attachment B – Neighboring Jurisdictions with Adopted CAPs and Reduction Targets

The following table was prepared by ABAG, and updated by staff, as a snapshot of climate change planning occurring within the Bay Area. The table shows a sample of Bay Area cities, their status with regards to adopting a CAP or related document, and the established greenhouse gas (GHG) reduction goals included. Several jurisdictions in the table are participating in the Santa Clara County collaborative CAP development project, including Cupertino.

Most neighboring jurisdictions with adopted reduction targets have used the Air Resources Board’s guidance to mirror Statewide reduction efforts at the local level, which translates into a target of 15% below baseline levels by 2020. Most of the jurisdictions listed have baseline years of 2005 or 2008. As shown in Attachment A, Cupertino is using a 2010 baseline level.

City	Adopted CAP	GHG Reduction Goal
Campbell	No	-
Cupertino	No ¹	-
Gilroy	Pending ¹	15% below 2010 levels by 2020
Los Altos	Pending	15% below 2005 levels by 2020
Los Altos Hills	No	-
Los Gatos	Pending	15% below 2008 levels by 2020
Milpitas	Yes	15-20% below 2005 levels by 2020
Monte Sereno	No	-
Morgan Hill	Pending ¹	15% below 2010 levels by 2020
Mountain View	Yes	15-20% efficiency improvement over 2005 levels by 2020 ²
Palo Alto	Yes	15% below 2005 levels by 2020
San José	Pending ^{1, 3}	15% below 2010 levels by 2020
Santa Clara	No	-
Saratoga	Pending ¹	15% below 2010 levels by 2020
Sunnyvale	Pending	23% below 2008 levels by 2020
County (municipal)	Yes ¹	Decrease emissions 10% every 5 years 2010-2050
