Hi Aarti,

Thank you for meeting with me regarding the library services in the GPA a few weeks ago.

I shared the information with the Library Commission during our meeting last week. The Commission was pleased with the wording changes that the staff is proposing and endorses the decision to add the phrase "library services" into the current policies.

In addition, the Commission voted to put forth the proposal that an additional policy be added to the GPA:

Maintain and strengthen collaborative agreements and relationships with the Santa Clara County Library District to ensure progressive excellence in the facilities, programs, materials, and learning services provided to the diverse and growing Cupertino population.

We feel that an agreement is more specific and documented than an unspecified partnership. And the new proposed policy acknowledges the real and ongoing reliance and mutuality with SCCLD as 'maintain' indicates a responsibility to existing agreements.

Best Regards,

Jerry
